

## **Simon Hally biography**

Simon Hally is an award-winning journalist who has edited and written for many national business and professional magazines in Canada. He has worked for large and small companies and for himself, gaining insights into the behaviour and cultures of numerous organizations and industries. He has come to admire the extraordinary things that corporations can accomplish, while shaking his head at the way many of them treat their employees.

All this was inspiration for *Losing It*, his first work of fiction, which he wrote after escaping the corporate rat race of Toronto and moving north to the more peaceful lake district of Muskoka, where he now lives and writes. He's currently working on a sequel to *Losing It*.
